About CBC

CBC UK Limited

Founded in 1985, CBC is a specialist independent Lloyd's broker providing access to Lloyd's and the London insurance market for intermediaries based throughout the world. Following an MBO in 2017, the business became employee owned, with all staff becoming shareholders in the company.

From its headquarters in London, CBC has expanded and diversified greatly over the years and now trades through a number of divisions including; UK Corporate Risks, Art and Private Clients, International, Healthcare, Global Risks, Motor Fleet and Professional Risks.

CBC's core values and culture have evolved over time and give us a unique presence and voice in today's marketplace.

CBC UK Wholesale

CBC's UK Wholesale business is focused on working with other intermediaries to place professional indemnity and commercial insurance for businesses that are domiciled in the UK.

By partnering with like-minded independent brokers, we keep our agency base small, enabling us to provide a personal service that differentiates us from many of our competitors.

We understand that, above all, our duty of care is to our clients who are at the centre of every action that we take - it is our creative approach to problem solving that ensures the solutions we put forward reflect precisely the needs of the insured.

Our ethos of dedication, reliability and accountability underpin our approach and are the foundations of our business.

What we do

We arrange professional indemnity, property, casualty and associated insurance for all types of professional, commercial and industrial businesses. Specialising in complex and unusual placements, our detailed sector knowledge, niche expertise and experience makes us well placed to assist you with even the most challenging risks.

- Miscellaneous Professions and Consultants
- Surveyors

Why CBC?

Independence

We are independently owned and our model encourages all employees to become shareholders in the business. By taking this approach, we ensure that the entire organisation is driven by its stakeholders who are collectively invested in its success. Our independence also allows us unrestricted access to the whole market. This gives us the freedom to bring together multiple insurers to create a singular solution, ensuring we provide the best possible outcomes for our clients.

Market

We have access to all Lloyd's and London insurers and MGAs and can help you to navigate the complexities of the London market. Each member of our team is empowered to make decisions and negotiate directly with underwriters on your behalf. This approach enables us to respond to challenges quickly by creating bespoke solutions for difficult and hard-to-place risks, often with niche insurers that many of our competitors cannot access.

Approach

We are committed to our wholesale business and do not operate in the regional market. By taking this approach we avoid competing with our broker partners and the conflicts of interest that many of our competitors face. We deliver a comprehensive and reliable service by providing sound advice and quick responses. Our proactive and determined approach means that you can enjoy the peace of mind that comes from knowing that your clients' business is in trusted hands.

Claims

We understand the importance of supporting both ends of the insurance chain and our claims service is another area that sets us apart. Our hands-on approach to claims is at the heart of our business which means that when a client turns to us following a loss, we work closely with all stakeholders to ensure continuity of trade and that the best outcome is reached in the quickest time frame possible.

Our team

We are an established team of insurance professionals with decades of experience working in the Lloyd's and London market. We are particularly adept at providing bespoke solutions for difficult to place and unusual risks.

To discuss how we can help you, please contact us.
